UFO 11D Downlight

An adjustable recessed downlight fitting, secured through ceiling with spring clips.

Available in a range of finishes, this fitting can be rotated and tilted to point directly at any objects to be illuminated. The fitting also allows for the light beam to be focused. The fitting is also suitable for mounting in the base of a display case and illuminating upwards.

Our downlight fittings are suitable for use in a variety of different applications and are the ideal solution for the illumination of static objects within a display case or cabinet.
